

TS4065

**HIGH
CAPACITY
STOCKPILING**

The McCloskey TS4065 sets the standard for high capacity, high mobility stackers. The TS4065 comes with an impressive array of features, including a large hopper, full-length guarding, an easily accessible engine bay, an impact section under the feed boot and an adjustable feed boot height. When the TS4065 arrives at a job site, it takes only a few minutes to set up and get to work. As is the case with all McCloskey stackers, the TS4065 features a setback design for maximum stockpiling.

At 65' long, the TS4065 is the entry point for McCloskey tracked stackers, which are also available in 80', 100' and custom lengths.

Tracks
For maximum mobility, tracks allow the stacker to be easily moved on its own.

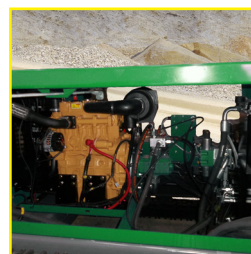

Large Hopper
The large hopper allows operators to make the most efficient use of the TS4065's high volume capabilities.

Stockpiling Ability
At 40" wide and 65' long, the conveyor is able to handle large amounts of product.

Full Safety Guarding
Full-length flashing minimizes nip points, increasing safety.

Power Unit
49hp / 36.5kW Tier III Diesel power unit is easily accessible for service.

TS4065

Engine: 49 hp (36.5 kw) Tier III Diesel
Transport Height: 7' 10" (2.39m)
Transport Length: 43 2" (13.15m)
Transport Width: 7' 4" (2.23m)
Stockpiling Height: 25' 10" (7882mm)
Weight: TBA
